

SLDMM 2016 Testimonial

Every Woman Sierra Leone would like to thank you [SLDMM] for your continued support especially for the recent donation of mattresses, clothing and toys to flood victims in the Bay Community in Freetown.

Our campaign will continue in that community because our attention has been drawn to the deplorable state of their Community Health Centre especially their delivery and maternity units.

Some of the mattresses you donated are now used in their observation room and female wards.

We are committed to the cause of making the lives of women and children better in every region in Sierra Leone and we are confident that with partners like you we can help make a difference in the lives of these people.

... Please accept assurances of our esteemed regards.
